

Fresh, modern and highly effective antiperspirant for contemporary lifestyles. New "fluid emulsion" technology produces a stable, water thin cream that acts as a gentle emollient and skin conditioner.

New hybrid aluminium/zirconium salts with glycine - a new generation of antiperspirant additive:

- Much greater efficiency
- Much gentler
- Lower usage level
- Low aluminium salts (9%) and low alcohol (9%) formula provides gentle protection.
- Non irritant, natural based fragrances.
- Sensu now provides the gentlest antiperspirant protection on the market.
- Unique 'activity boost on demand' technology supplies freshness for up to 24hrs.
- Exceptional protection from perspiration and odour.
- Rich in skin nourishing emollients, protective vitamins and historically proven plants extracts.
- A superior alternative for the whole family.

Force
